

Viscosity System Options

Temperature Regulation-System **OP-TC-X**

Ink temperature control with heat exchanger

Reduce your printing cost with Ink Temperature Control and Management.

VISUALIZATION **OP-VM-A**

AND CONTROL SOFTWARE

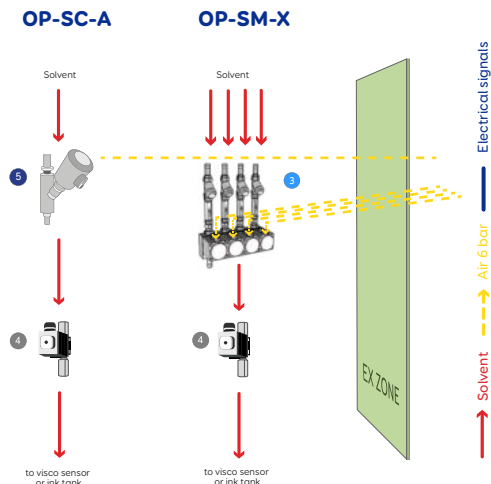

VISCOPOINT® MANAGER V6

Visco Control-, Recipe- and Colormangement, Database and Protocol.

Solvent Consumption Control **OP-SC-A/OP-SM-X**

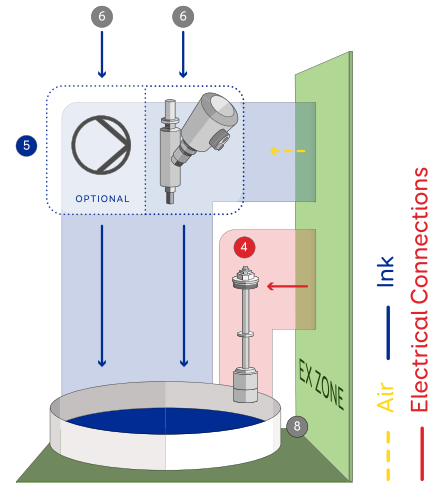

Solvent consumption and mixing systems

Automatic solvent mixing and management, Reduce cost by controlling solvent consumption.

Tank Level Control **OP-TL-X**

Ink tank level monitoring and control

Tank level control and auto re fill.

STAINLESS STEEL HOUSING **Z5015**

For easy external mounting, preassembled Inox-Box holds Control unit, valves and power supply. For 24VDC and 115/220VAC.

MOUNTING STAND | ALARM SIGNAL

For easy and stable installation of the viscosity sensor.

For visual display of warnings or system errors.
